EXPLANATION

ENTRY NUMBER. Documents are referred to by entry numbers in the index to this Check List. Entry numbers do not appear on the documents and should not be used in citations.

LANGUAGE OF ISSUE. The language editions in which a document is issued are indicated as English (E), French (F), Spanish (S), Russian (R), Chinese (C), or bilingual English-French (E&F) texts.

DOCUMENT SYMBOL AND SHORT TITLE. The official document symbol number precedes the title entry. This symbol should be used in citing documents. In the case of publications without document symbol numbers, titles should be cited together with the session number, issue number, supplement number, and volume number, whichever is included in the entry. Title entries have been standardized and shortened or expanded in order to clarify the meaning of the titles and the authorship of the documents, so the entries do not always conform literally to the actual documentary titles. The collation shows the pagination of the English or bilingual English-French text only. The date appearing on each document below the document symbol number is usually the date of registration of the documentary text with the Bureau of Documents for publication and translation and should be the same in all language texts. The date of registration closes each entry. Corrigenda and revisions usually are grouped with the parent document in the same entry. Corrigenda are corrections of errors in the text, title, date and classification of documents, emendations of the translation, and additions of omitted text. Addenda include supplementary material, such as annexes, tables, and other additional communications. Revisions are texts revised through formal amendment, or new editions prepared by the submitting delegation or by the Secretariat.

REPUBLICATION NOTES indicate the republication of whole documents in other documents or in the Official Records. In the case of resolutions only their republication in collected sets is indicated, in the case of draft resolutions no attempt is made to note the inclusion of their texts in the verbatim records of meetings.

5: ECONOMIC AND SOCIAL COUNCIL

RESTRICTED Documents of "restricted distribution" are indicated in this Check List by a black dot (•) before the symbol.

INTRODUCTORY NOTES give a short parliamentary history of the Commission and describe briefly each Committee session by session, including the date of its appointment, citing its terms of reference, naming its members and officers, listing its reports and document series symbol (if any), and tabulating its meeting records. The plenary meetings are shown in tables for each session. The tables indicate both published and unpublished meeting records and related press releases. Since drafts for the published meeting records should be deposited as a matter of course in the Archives of the United Nations, the tables under the heading "Archives" show only the unpublished manuscript records deposited in the Archives ("TPV", "TSR") and the sound recordings ("X").

The United Nations Library gratefully acknowledges the assistance of the Carnegie Endowment for International Peace and the Rockefeller Foundation in the preparation of this Check List.

SUBJECT-INDEX

Explanation

All references to documents are made to the entry numbers in the Check List under which the document symbol, title, language, dated, republication note, etc., will be found.

Records of meetings are indexed by the entry numbers of the tables of meetings and, following a colon (:), by meeting numbers. The word discussion refers to both meeting records of plenary meetings of the Council and Committee meetings. Thus the following entry in the Subject-Index:

Crime: discussion 426:198
New Zealand document 322

is to be interpreted: Crime is treated in a document submitted by the Delegation of New Zealand, listed in entry 322, which is document E/AC.7/61. The meetings in which the subject was discussed will be found in the table of meetings of the seventh session of the Council in entry 426, where the 198th meeting is shown to have taken place on the 13th of August 1948 and its proceedings recorded in document E/SR.198.

Resolutions are cited by resolution number and session e.g., RESOLUTION 105(VI), RESOLUTION 144(VII), etc. The arabic numbers are the numbers of the resolutions and the roman numerals following indicate the session. It is preferable to use the volume of collected resolutions for each session rather than the individual mimeographed resolutions.

References to the introductory notes are indexed by entry numbers.
